

EOS WITH REMOTE INSTRUCTIONS

FOR THERMAL POOL COVERS

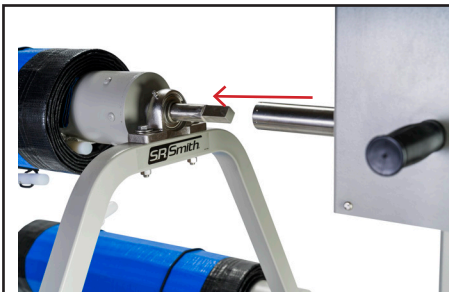

USING THE EOS WITH REMOTE TO PLACE COVERS ON THE POOL

RIGHT BRAKE

- 1- Unlock brakes on reels and move into desired position on the pool deck.
- 2- Lock the brakes to prevent unwanted movement.
- 3- Unplug EOS from the wall charger and roll to the storage reel.

- 4- Find the ends of the reels tube(s) with the ___" square mounts/bolts. Then grab the handles on both sides of the EOS device and raise or lower the unit until the round female attachment aligns with the square bolt and slide them together. (If having problems aligning the bolt, slightly rotated the reel tube by hand until they align.

- 5- Using either the remote or the buttons on the EOS unit, press the _____ button to begin unreeling the cover while another person walks down the side of the pool with a lead line.

- 6- Repeat for each cover piece, detaching and using the alignment steps from above
