

LOCKING ANCHOR QUICK GUIDE

POOL DECK INSTALLATION FOR THE LOCKING ANCHOR

Ensure Locking Anchor has been installed in the correct location in the pool deck for proper lift operation. It is recommended that the anchor be installed by a person familiar with installing pool deck equipment.

The proper installation of the anchor depends on the construction and condition of the deck. The optimal mounting distance for the deck anchor is between 12"/30.5 cm to 18"/46cm from the edge of the pool. Please call S.R. Smith with any questions concerning deck anchor placement or if the LIFT will work in your installation.

Locking Deck Anchor

(Install the anchor so the locking tab is perpendicular and furthest away from the Deck to Water (DW) edge)
