

## WETDEK IS AN INTERACTIVE WATER PLAYGROUND THAT DOUBLES AS A BACKYARD WATER FEATURE.

The WetDek comes in a 6, 9, or 12 jet configuration and actively shoots water into the air up to 6' high. All water activity is managed by a proprietary control system that provides five unique programs, four that keep the jet action inviting and one that keeps the water clean.

### BACKYARD WATER PARK

With a stand-alone WetDek in your backyard you're never far from fun. All you need is a small patch of space and you're well on your way to being the envy of all the neighborhood kids.

### POOLSIDE FUN

Add a dash of splash next to your new or existing pool. With the WetDek pool kit you can add another layer of fun to your pool.

### SOOTHING WATER FEATURE

When playtime is over and you just want to relax, then use your WetDek as a soothing water feature.
