PoolSonix Earns Top Innovation Nod from Security Sales and Integration

CANBY, Ore. – S.R.Smith’s [PoolSonix swimming pool alarm system](#) has been recognized by industry experts from Security Sales and Integration as one of the [Top 30 Technology Innovations of 2010](#).

The PoolSonix pool alarm solution is a detection and notification system designed for swimming pool environments. The system detects and notifies the user of unauthorized access and accidental pool entry - potential drowning precursors. The PoolSonix system is comprised of a wireless immersion alarm, a wireless door/gate alarm and a universal wireless bridge that enables connection to virtually any home security system or home automation system. The system also includes a wireless in-home touchpad, a wireless siren strobe and wireless key fob for easy on / off control.

“This is a nice way to round out 2010,” said Brett Fritts, Vice President of Marketing and Business Development for S.R.Smith, “Top 30 Innovator recognition is an important credibility point for PoolSonix with security professionals.”

The PoolSonix system is designed to meet the requirements of the most stringent ASTM standard for pool alarm devices (F 2208-08), as well as, the UL standard for Swimming Pool Gate Alarms (UL 2017).
