## **S.R. Smith Swimming Pool Security System Recognized by CE Pro Magazine**

**CANBY, Ore.** – S.R. Smith's [PoolSonix](#) swimming pool security system has been recommended by CE Pro Magazine to its readership of consumer electronics professionals as one of ["10 Security Products for Your Next Install."](#)

The PoolSonix pool alarm solution is a detection and notification system designed for swimming pool environments. The system detects and notifies the user of unauthorized access and accidental pool entry - potential drowning precursors. The PoolSonix system has a wireless immersion alarm, a wireless door/gate alarm and a universal wireless bridge that enables connection to virtually any home security system or home automation system. The system also includes a wireless in-home touchpad, a wireless siren strobe and wireless key fob for easy on/off control.

"CE Pro is a highly respected publication, so it's a real compliment when they recommend a product to their readership," said Brett Fritts, vice president of marketing and business development for S.R. Smith. "We appreciate the recognition and hope that it encourages CE Pro's audience to consider adding swimming pool security to their résumés."

The PoolSonix system is designed to meet the requirements of the most stringent ASTM standard for pool alarm devices (F2208-08), as well as the UL standard for swimming pool gate alarms (UL 2017).
