

FLY WITH VELOCITY **ANY WAY YOU CHOOSE**

Whether flying from the back of the block during a relay exchange or exploding from a push off the track start, the Velocity is designed for fast, solid starts. And now the high performance Velocity platform is available with a composite base, perfect for bulkhead and endwall applications.

WELCOME TO THE FAMILY INTRODUCING THE **VELOCITY ADVANTAGE STARTING BLOCK**

FEATURES & BENEFITS

- Generous 71cm x 81cm Velocity platform, with unique track start wedge that can tuck under when clear block surface is desired
- Patent pending integral backstroke starting ledge can easily be adjusted from the deck to 5 positions per FINA standards
- Mounts to bulkhead or deck with four shallow anchors
- Marine grade, composite HDPE base will stand up to pool environments

VELOCITY ADVANTAGE STARTING BLOCK

Elite competition platform

Designed for fast, solid starts, the Velocity Advantage starting blocks feature strong fiberglass footboards with track start wedge on an HDPE composite base.

- Easily mounts to pool decks or bulkheads with minimal drilling
- 41cm height makes it well suited for bulkheads and end walls with 20cm - 42cm deck to water heights
- The 71cm x 81cm footboard surface is available with TrueTread™
- Track start wedge, adjustable to 5 positions, easily tucks under the footboard
- Patent pending integral backstroke start ledge is adjustable to five positions in accordance with FINA standards
- Three built in backstroke handholds – two center positions and one on each side
- Compatible with Colorado and Daktronic timing systems

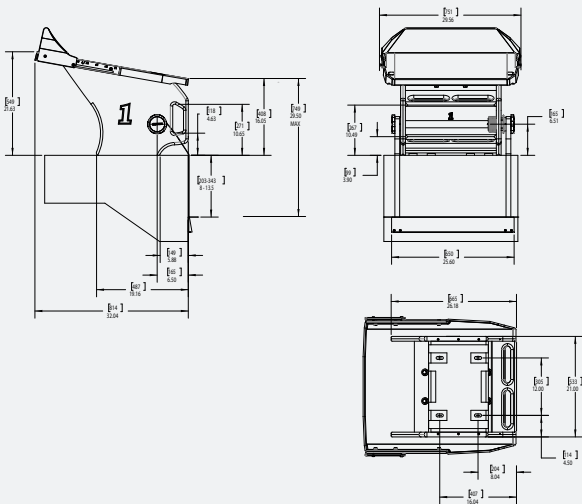

+ “No Dive” & Solarguard covers available
